In the supporting statement below I describe my suitability to serve on the Board and the experience and expertise I can contribute, and outline what I would hope to achieve for fencing in Scotland through membership of the Board.

Supporting statement

I have been an enthusiastic fencer for over 35 years now including Strathclyde University, Glasgow West, and Kyle – the latter where I was one of the coaches helping introduce novices to the sport – and have now reached the stage in life where I feel it is time to give something back to an activity I have greatly enjoyed for so long.

Whilst I have not been involved with SF before, I have extensive board experience within charitable and membership organisations focussing on governance, fundraising, and strategy including the Royal Incorporation of Architects in Scotland, National Trust for Scotland, and Culture & Business Scotland. In those roles I regularly work as part of the trustee and executive team on unglamorous but essential matters such as OSCR requirements, governance procedures, and financial reporting.

I am a chartered architect and building engineer with my own practice based in Ayrshire, working on a wide range projects across the UK and Ireland. In that capacity I am also an expert advisor to the National Lottery Heritage Fund and provide advice on strategic fundraising within the built environment sector. That background in outcome-based grant applications will, I hope, be transferrable to the essential work that SF undertake supporting clubs throughout Scotland.
